SUMMARY

Highly motivated and detail-oriented aspiring Front-End Developer passionate about creating interactive and well-designed websites. Eager to apply strong foundational skills in HTML, CSS, JavaScript, React, and Next.js to build engaging user experiences. Possessing a proven ability in problem-solving and a comprehensive understanding of the software development lifecycle, including professional SRS documentation, keen to contribute to a dynamic development team.

PROJECT

E-commerce Store Front-End

By myself • [Link to Live Demo - E-commerce Store] • May 2025 - June 2025

- Developed a fully responsive e-commerce web application for home lighting, featuring robust user authentication and a seamless shopping experience.
- Contributions: Implemented secure user login/registration (Auth.js with Google accounts), dynamic product catalog with filtering, persistent shopping cart management, and order submission.
- Utilized Supabase for data storage and ensured full responsiveness across devices.

Personal Portfolio Website

By myself • [Link to Live Demo - Portfolio] • January 2025 - February 2025

- Crafted a comprehensive personal portfolio showcasing my front-end development skills, projects, and professional journey.
- Contributions: Independently designed and implemented the entire custom UI/UX, demonstrating a keen eye for aesthetics.
- Ensured a fully responsive layout and incorporated interactive JavaScript elements to enhance user engagement.

React Quiz App

By myself • [Link to Live Demo - React Quiz App] • November 2024 - December 2024

- Built an interactive, multi-category quiz application designed to test user knowledge with a timed, engaging experience.
- Contributions: Leveraged useReducer for robust state management of quiz flow (loading, active, finished), user selections, and scoring.
- Implemented useEffect for dynamic question loading from a local API, supported multi-category selection, and included a real-time countdown timer.

EDUCATION

Bachelor of Science in Software Engineering

Minor in Front End Development • Al Azhar University • Gaza, Palestine • September 2020 – Expected September 2025 • 85.9

COURSEWORK

The Ultimate React Course 2025: React, Next.js, Redux & More

Udemy • 2025 • React, Next.js, Redux, Tailwind

- The Ultimate React Course 2025: React, Next.js, Redux & More by Jonas Schmedtmann.

Learn React

Udemy • 2024 • React, Redux, Tailwind

- Learn React with Yarob Al Mostafa.

SKILLS

HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind, Bootstrap

React, Next.js, Bootstrap, Tailwind CSS

Supabase

Git, GitHub, VS Code, Chrome DevTools

Responsive Design, Problem Solving, SRS Documentation, User Interface (UI) Design
